

The Golden Valley Tree Park Management Committee is looking for volunteers to help coordinate our volunteers!

The efforts and energy of our volunteers are vital in maintaining and developing the Tree Park. And because most of our volunteers come from our local community, it is our volunteers that make the Tree Park such a community asset.

Our volunteers include:

- The Park Management Committee (including sub-committees and working groups)
- The Friends of Golden Valley Tree Park, including all those who attend our (semi-)monthly busy bees
- Other people who undertake particular projects or provide services to us on a voluntary basis

We are looking for someone (or maybe a few people) who are able to devote a few hours per week (flexible) to assist us to provide a better experience for our volunteers and enable us to better deploy their skills and energy.

We are seeking Volunteer Coordinators who can:

- Maintain a spreadsheet database of our volunteers
- Take responsibility for registering and inducting those who participate in our working bees
- Keeping records of the hours and other contributions made by our volunteers
- Communicating with our Friends and volunteers via social media and other channels
- Encouraging more people to volunteer at the Tree Park

If you think you could help with these tasks, please [drop us a line](#) about how you might be able to contribute and outlining any previous relevant experience.

Laurie Capill (Park Secretary)
