

GVTP Tree Sponsorship Conditions

1. Sponsorship of established trees at Golden Valley Tree Park is encouraged as a way of contributing personally to the enhancement and ongoing management of the Park.
2. The Sponsorship cost normally ranges between \$120 and \$240 per depending on the age, rarity and siting of the tree. Prices are included on the “Trees available for Sponsorship” list below. Special trees may also be offered at a premium price.
3. The name (only) chosen by the sponsor shall be engraved on an aluminium tag and placed on a wooden post next to the tree below the tree’s identification plaque.
4. The only trees available at a given time are to be found on the “Trees available for Sponsorship” list current at the time (see below) which is issued by GVTP Inc. from time to time. These trees show good prospects for long-term survival. They also usually have wooden posts in place.
5. Each tree Sponsorship allocated is for the life of the tree. Whilst we endeavour to provide only healthy well established trees for sponsorship, we cannot guarantee the life span of any tree allocated for sponsorship in the Park.
6. If for any reason a healthy tree is deliberately removed for management reasons within thirty years of allocation, then a new tree can be allocated on request by the sponsor, to be chosen from the “Trees available for Sponsorship” list current at the time.
7. Later dedication of the one tree to more than one person is accepted where all existing sponsors indicate agreement, or where such agreement might be reasonably inferred in the case of deceased family members or friends. In such cases 50% discount shall apply to subsequent sponsorships.
8. Trees may also be dedicated to a family or group on a single plaque at the outset.
9. GVTP is not intended as a memorial park: sponsors need to be aware that whilst the placement of ashes is not prohibited, GVTP Inc reserves the right to remove any tree for any reason. Attempt will be made to notify the sponsor of any such removal well in advance, unless there is an issue of public safety.
10. The GVTP Inc. committee may at its discretion make special agreements regarding tree sponsorship where these would be of greater benefit to the Park than is normally the case.
11. Sponsors should also note that although arrangements are made in good faith, the management requirements will change from time to time, and guidelines may be changed by the GVTP management committee to reflect conditions at that time. Sponsorships can only be offered on this basis.
12. Sponsors should be aware of the above conditions.
